Color Characteristics

Colors are shown as accurately as printing allows. A lightfastness rating and pigment specification is provided for each color as your warranty of quality.

Pigment Description

PY = Pigment Yellow
PO = Pigment Orange
PW = Pigment White
PBr = Pigment Brown
PB = Pigment Blue

PV = Pigment Violet
PG = Pigment Green
PBk = Pigment Black
PR = Pigment Red
LF = Light Fast

Pigments

○ Transparent ● Semi ● Opaque

Both opaque and transparent pigments are used in the Jo Sonja line. Transparent pigments reflect light differently than opaque pigments, which do not allow the light to pass through the transparent pigment particles, thus allowing the undercoat to show through. These make wonderful colors for glazing.

Temperature

↓ Warm ↓ Warm/Cool ↓ Cool

ASTM Pigment Lightfastness

ASTM 1 – Pigments of excellent lightfastness
ASTM 2 – Pigments of very good lightfastness

Family

N = Neutral
Y = Yellow
YO = Yellow Orange
O = Orange
RO = Red Orange
R = Red
RV = Red Violet

V = Violet
BV = Blue Violet
B = Blue
BG = Blue Green
G = Green
YG = Yellow Green

P65 = The State of California in the United States has unique labeling requirements for products that contain certain chemicals. These chemicals are listed, under rules of the California Safe Drinking Water and Toxic Enforcement Act (otherwise known as Proposition 65 or Prop 65), as being known to cause cancer and/or reproductive toxicity. If chemicals on this list are in products sold in California, the product label is required to provide clear and reasonable warnings to that effect. As required by California law, the result is that we apply warnings to products which contain Prop 65-listed chemicals, where such are listed as ingredients on the product's Safety Data Sheet and/or label, regardless of where they are sold. Full information on this law, a current list of chemicals and other resources can be found on California's Prop 65 website: www.p65warnings.ca.gov

Jo Sonja Background Colours are specially formulated to provide one coat coverage on most surfaces. The formulation varies slightly from the palette colors as they include fillers to smooth out imperfections for ease in basecoating. Colors are independently tested and conform to ASTM lightfastness standards to ensure they will not fade over time. Use alone or in conjunction with all other Jo Sonja Matte Flow Acrylic and Background Colours. Use in conjunction with Jo Sonja Mediums for various techniques and special effects. Suitable for most surfaces including wood, paper, cards, illustration board, canvas, glass, and terracotta.

Premium Metallic Acrylic
Provides a finish of polished metal.

Premium Pearlescent Acrylic
Provides a shimmering, iridescent luster resembling that of pearl.

Iridescent Colors
Translucent colors for highlighting, overall iridescent effects and faux finishes.
